---

## AI Beginner's Training

This training path introduces you to the fundamentals of cloud computing with Azure and AI services. It includes foundational Microsoft Learn courses and resources from other 3<sup>rd</sup> party learning sites. These training resources will be a good starting point to help you familiarize yourself with Azure resources and some of the fundamentals of working with AI in Azure.

### 1. Microsoft Azure Fundamentals (AZ-900)

**Course Link:** [AZ-900 Microsoft Learn Course](#)

**Goal:** Build foundational knowledge of cloud services and how they are provided with Microsoft Azure. Complete all videos, readings, and labs.

#### Modules to Complete:

- Describe cloud concepts
- Describe Azure architecture and services
- Describe Azure management and governance

### 2. Microsoft Azure AI Fundamentals (AI-900)

**Course Link:** [AI-900 Microsoft Learn Course](#)

**Goal:** Gain a basic understanding of core AI concepts and Azure AI services. Complete all learning content and hands-on labs.

#### Modules to Complete:

- AI Overview
- Computer Vision
- Natural Language Processing
- Document Intelligence and Knowledge Mining
- Generative AI

### 3. Whizlabs AI-900 Certification Preparation

**Course Link:** [Whizlabs AI-900 Course](#)

**Goal:** Reinforce AI-900 knowledge with additional video tutorials, hands-on labs, and practice exams.

#### Activities to Complete:

- Course learning
- Labs
- Practice exams
